

Bella wagner has no quiet moment anymore since she is on her way to capture the European music scene. Everyone who was lucky enough to see her live knows why: It is her amazing voice that keeps her audience spellbound. Bella's interpretation of a song is infectious: Although some people bear analogy to Grace Jones, Macy Gray or even Tina Turner, Bella's vocal performance is unique and outstanding. Urban Soul and Funk are her passion and on stage she performs like a volcano – full of energy! Her appearance is simply soul - infusing and she leaves her audience amazed.

Bella was born in Vienna and she is fluent in five languages (German, English, Slovakian, Croatian and Hungarian). Her father derives from a Croatian island and her mother is from Slovakia. Bella is a passionate dancer and her ability is obvious whenever she's on stage. With her Croatian temper and the soulful voice, she instantly became an inherent part of the Austrian club scene. She frequently performs with her band or with DJs at clubs, events, and festivals and transforms every event into a roaring success.

Inspired by Eartha Kitt, Nina Simone and Betty Davis, Bella followed her passion for Jazz, Funk and Soul. Bella wagner recently released her first album "That's what I like". The album - produced by her fellow musician Oliver Werbach - contains seven unique interpretations of all time classics like Screamin' Jay Hawkins' "I Put A Spell On You", Louis Jordan's "Is You Is", Bob Dylan's "Baby Blue" and Nina Simone's "Love Me Or Leave Me". "That's what I like" is available at the most popular music-download platforms like iTunes, napster.jp and musicload and as a "real CD" at Amazon.de.

Bella is currently promoting her album and is already working on the second one "That's what I like 2". The new album - produced by Oliver Werbach - contains ten previously unreleased funky songs written by Bella wagner and very talented composers and lyricists from the Netherlands, Great Britain and the USA.

In addition to her own project, Bella wagner frequently teams up with, DJs and record companies around Europe for feature projects. Some of her released feature tracks can be found on her website, where she not only appears as a singer, she also shows her talents as lyricist and co-writer of the lead voices.
